Contemporary Psychotherapy + Psychoanalysis (ICP+P).
Dear Colleagues,

Clinical Critical Moments is the Treatment Process is the 39th Annual Conference sponsored by the International Association of Psychoanalytic Self Psychology and will provide an in-depth view of Self Psychology as practiced and conceptualized almost a half-century after Kohut’s Analysis of the Self. Today we celebrate his theory in various modalities and interventions to approach treatment but one in which theory resides at the moment of affective engagement between patient and therapist.

A wide range of topics will be covered in our four Pre- Conference workshops offered by well-versed teachers as well as a variety of panel discussions, workshops, and the Plenary Panels. The Conference Chair will introduce keynote speakers. The Panel will feature a mix by Beatrice Beebe providing a privileged look at her clinical interaction with an adult patient in long-term psychotherapy. The mix will engage attendees with a wide range of discussion participants.

Twenty-one papers will be presented during three Distinguished Paper sessions, each paper followed by an invited discussion.

There will be three Meet the Author events at Friday luntime and a Philadelphia and California program on Saturday morning with presentations by an invited panel. The Michal Memorial Lecture will be presented by Toni Laskey this year. At luntime on Saturday Special Interest Group EASs are scheduled throughout the conferences.

Each of the five Plenary Panels will highlight clinical moments of unusual affective intensity and each presentation will be followed by a panel discussion. The keynote speaker for each panel presented by the Institute for Clinical Psychotherapy and the Maryland Board of Psychologists will be included. But on Panel I a child treatment will be presented with its moments explored in a more informal discussion among the Panelists. The Panel II is a paper that focuses on the theme for the session. The main topic in the Clinical Critical Moments will focus on the analyst's affect in the treatment relationship, offering clinical vignettes from three different speakers.

The first three Plenary Panels will be followed by Panel Discussion sessions in smaller breakout groups led by teams of three. Plenary Panelists and Psychiatrists from the five Panels will have in panels with attendees to answer questions. To begin and end the conference we'll hear a few words from our outgoing and incoming presidents respectively -- Shelley Orchard and Eldad Iddan. And we thank them profusely for their contributions.

— Conference Co-Chairs: Richard Geist, EdD & Judy Teicholz, EdD

This is the 39th Annual Conference of the International Association for Psychoanalytic Self Psychology (ICP+P) and the 52nd Annual Conference of the International Association for Psychoanalytic Self Psychology (IAPSP). ICP+P maintains approval by the Maryland State Medical Society to provide continuing medical education for physicians (including associate, maintenance and credit), and the American Psychological Association (Category I Credits). Psychologists: ICP+P is approved by the American Psychological Association to offer continuing education for psychologists. This program also carries approval from the Pennsylvania Board of Psychology for the number of credits listed above. This conference is not accepted for National CJAA Approved Programs, and the New Jersey Board, and do not accept national New Jersey Stateboard. IAPSP is an approved provider of Continuing Education for Psychologists for the Board of Psychology of California. California is not an approved provider of Continuing Education for social workers, marriage and family therapists.
