

## IMPORTANT CHANGES IN 9/25 IAPSP CONFERENCE:

An extra thirty minute time requirement for the reasons outlined below means that the conference will end at 5:30 pm EST rather than 5:00 pm EST. We hope this does not prohibit your interest in and enthusiasm for attendance, but we do understand that this schedule change could affect your availability to attend. Therefore, if you wish a refund for any reason, we will provide you with a full refund of your registration fee up to September 20th, 2021.

As the learning time has been increased, there is also a concomitant increase in the CE credit to be awarded. Participants will now be eligible to receive 5.0 CEs, rather than 4.5 that had previously been established. We want to underline the fact that there is no additional fee associated with this change. We remind you that you must be present at the totality of the live conference to be awarded CE credit; partial credit is not available. Therefore, we are advising you of the additional half hour of conference time so you can plan accordingly.

Please email [admin@iapsp.org](mailto:admin@iapsp.org) on or before September 20 if you wish to request a refund.

We are looking forward to your participation in our upcoming conference on September 25, and are even more excited about the unique program we are presenting!

As you no doubt know, the initial part of our conference consists of three pre-recorded supervision sessions. Originally each session had been scheduled to be 30 minutes in length, but now, having completed these supervision sessions, we realize that all three dyads exceeded in length the 30 minutes allotted because of issues unique to each pair.

The paramount intention of the planning committee throughout had been that these sessions be spontaneous, unscripted, unique to the pair, and totally un-edited. Therefore we cannot reduce the length of these sessions by cutting out any part of the dialogue that ensued naturally in each supervision. Hence, we are taking this opportunity to advise you that the conference will end 30 minutes later than we had originally planned; that is, the conference will end at 5:30 pm EDT instead of 5:00 pm EDT.

The new schedule is shown below:

- 12:00: Conference start
- 12:10 - 2:10pm: Videos of the three supervision sessions will be shown, with a short break between each.
- 2:20 - 3:15pm: Panel discussion #1, with the presenting clinician and the three supervisors discussing their respective experiences with the moderator.
- 3:15 - 3:30pm: Break / participants move to breakout discussion groups
- 3:30 - 4:20 pm: Breakout discussion groups
- 4:25 - 5:25pm: Panel discussion #2 focusing on questions raised by the audience responded to by the panel.
- 5:30pm: Conference ends

We reiterate that if you wish for any reason to request a refund please email [admin@iapsp.org](mailto:admin@iapsp.org) on or before September 20th, 2021.

With kind regards,

Dan Perlitz, Co-Chair

Estelle Shane, Co-Chair
